# DRILLCOLLAR
## SEVERING TOOL

**Drillcollar Severing Tool (DCST)**
The DCST can be run on our eSlickline, conventional e-line, slickline or coiled tubing thanks to our variety of firinghead options

As part of ID Oil Tools' pipe recovery capability, the DCST fulfills a crucial part in operations where drillcollars are targetted as the place to free the pipe.

ID Oil Tools uses RF safe detonators only and adhere to API RP-67 regulations providing maximum security.
