CEM-FLEX
DUMPBAILER SLURRY

ID OIL TOOLS' cem-flex dumpbailer slurry is a CEFAS registered dump slurry specifically designed to prevent gas migration and to combat sustained casing pressure situations.

- Ultra-low permeability
- Flexible
- Post-Cure Expansion
- High Shear Bond
- Self-healing properties

Properties

The Cem-flex recipe has unique physical properties enhancing fracture toughness, elasticity and bonding to casing and formation. These properties eliminate the occurance of micro-fractures and gas migration ensuring ongterm well integrity.

Applications

Cem-flex dump slurry is used in rigless recompletions, water shut-off and well abandonments.

AVAILABILITY
Gallon (~19L) 17 PPG Batch kits, ready to mix and use 5
Class H Cement supersacs for pumping operations
